

## Lecture:

# Loading Control in Western Blotting

Presentation and demonstration of Total Protein Normalization with V3 and Stain-Free technology, advantages compared to HKP normalization

With the V3 Western Workflow from Bio-Rad, you can :

- Run electrophoresis in as little as 15 minutes
- Transfer proteins in as little as 3 minutes
- Verify the quality of your results at each step
- Easy loading control with Total Protein Protein normalization thanks to Stain-Free technology and automated Image Lab software analysis tool.

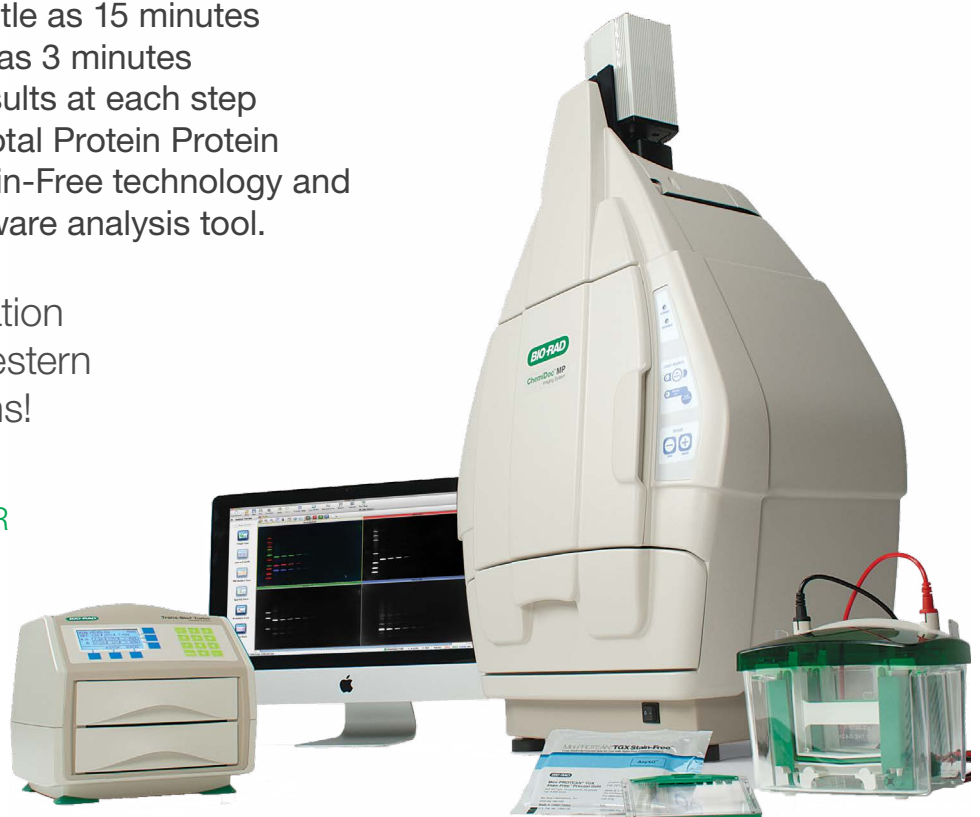

Come to a wet demonstration to see how well the V3 Western Workflow solution performs!

**20. května 2013, 10:00:**

Ústav molekulární genetiky AV ČR  
Václavská 1083, Praha 4

**21. května 2013, 10:00:**

Ústav organické chemie a biochemie AV ČR Flemingovo nám. 2, Praha 6 - Budova C (vstup ze Zelené ulice)
